

##CRISCa- Governance and Risk Management Concepts

###Objectives:

At the end of this episode, I will be able to understand:

1. IT Risk Management gives better oversight of assets by:
 - Reduces or minimizes losses
 - Identifies threats, vulnerabilities and consequences
 - Prioritizes risk response efforts
 - Increased probability of project success
 - Improved decision making by senior management
2. IT Risk Management is part of overall business risk
3. IT Risk Management should be guided by an IT Risk strategy that aligns with business goals and objectives
4. IT Risk management needs formal definitions, documentation, monitoring
5. The types of IT Risk
6. The importance of Management support
7. IT Risk Management should align with business goals and objectives
8. The Risk Management Lifecycle is:
 - IT Risk Identification
 - IT Risk Assessment/Analysis
 - IT Risk Response
 - IT Risk Monitoring and Reporting
