

Session 1 Activity Book

Activity 1.1: Mapping Risk to Impact

Understanding the impact that risk can have on the enterprise is a crucial foundation in managing that risk.

- Use the provided worksheet to outline at least one example risk and the category of impact.
- Be prepared to explain why you chose that risk and how it relates to the impact category.

Activity 1.1 Worksheet

Risk Example	Impact Category

Review Question - Matching

Correctly match each statements about governance and management. Two statements will match each term.

1. Ensures alignment with defined goals and objectives established by the governing body

2. Is a system to evaluate, direct, monitor and control an enterprise

3. Enables enterprises to create value for their stakeholders or promote the creation of value

4. Focuses on planning, building, running and monitoring

Governance

Management

Activity 1.2: Business Risk and IT

Businesses are extremely reliant on IT. Therefore, it is critical to consider the positive and negative impacts of IT when addressing risk.

Use the worksheet to outline both positive and negative impacts of IT.

Activity 1.2 Worksheet

Positive Impacts	Negative Impacts

Activity 1.3: Roles and Responsibilities

A small marketing firm based in Toronto wants to upgrade to a CRM to better manage its client requests.

Considering the sample organizational chart and RACI model, use the worksheet to sort the roles into Responsible and Accountable based on the scenario.

Discuss your answers as a group.

Activity 1.3- Key Risk Roles

Responsible	Accountable

Roles to Sort

Risk Manager

Risk Owner

Control Stewards

Risk Analyst

Control Owner

Activity 1.5- Process Review

What are measurable benefits to the enterprise that can come from a process review? How can you communicate those benefits to senior management?

Discuss your answers as a group.

Activity 1.6: Three Lines of Defense

What are the benefits of organizing into three lines of defense? How can this be implemented in an organization to improve the risk management process? Discuss these answers as a group.

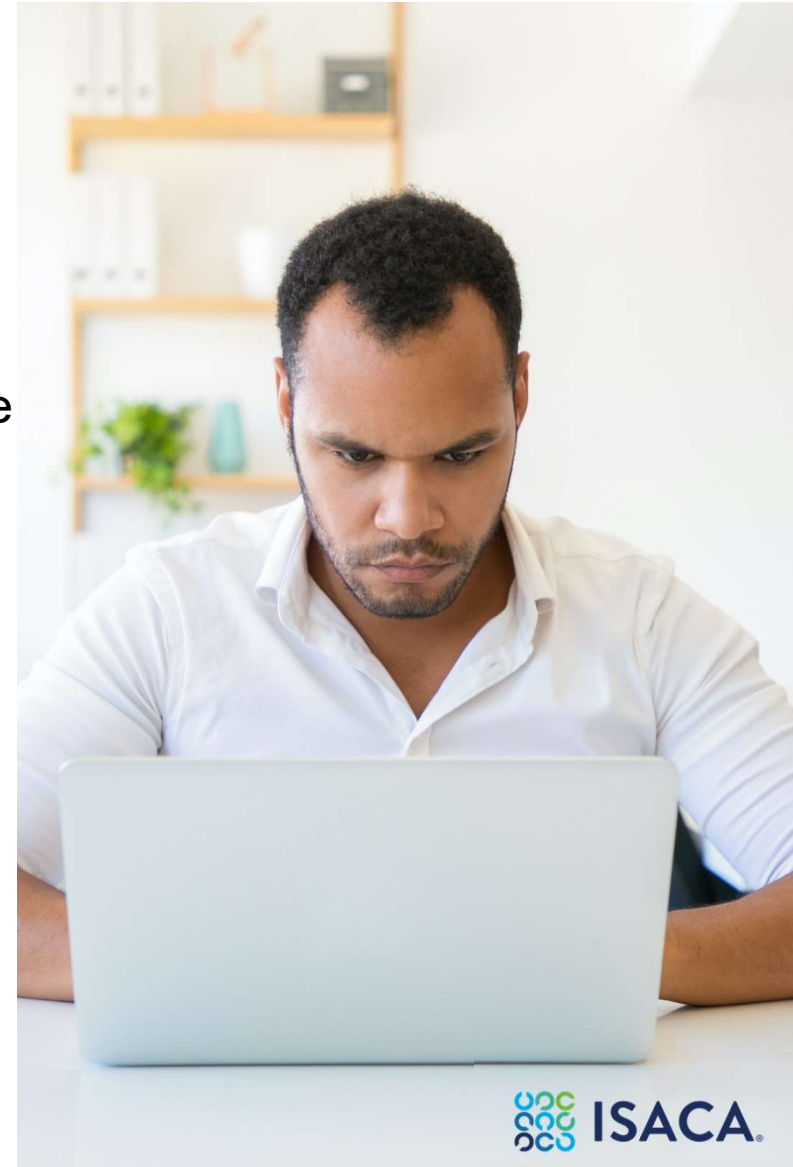

Activity 1.7: Impacts of Unethical Behavior

A small software enterprise has been acquired by a much larger, more established enterprise that could have been considered a competitor until recently.

Many employees are excited about new prospects. Others are concerned they may not find a place in the new organization.

In the event of mergers and acquisitions, what are the risk concerns that are posed by employees? Why is this so problematic? What can be done to mitigate this risk and/or respond quickly if necessary?
